J. A. O'GORMAN NEW YORK'S SENATOR

Supreme Court Justice's Election Breaks Protracted Deadlock.

MURPHY SAYS HE'S PLEASED

Choice Said to Be Tammany Man—Many Insurgents Aid in Election.

ALBANY, N. Y., March 31.—Supreme Court Justice James Aloysius O'Gorman, Democrat, of New York city, was elected United States senator tonight by the legislature after the most protracted struggle over this position ever held in the Empire State. On the final ballot, the sixty-fourth, he received 112 votes to 81 cast for Chauncey M. Depew, whose term expired March 4. At the close of a day of almost continuous negotiations the insurgents capitulated and Justice O'Gorman was elected.

Wild applause marked the end of the long contest, and the legislature, driven from the state capitol by Wednesday's fire, adopted a resolution adjourning until April 17.

Governor Dix then expressed gratification at the result.

Charles F. Murphy, leader of Tammany Hall, who for weeks has been striving to bring about the election of Mr. Sheehan, expressed himself as highly pleased.

Last night it was understood a senator would be selected today from a list of eleven submitted by the insurgents. Early this morning Mr. Murphy came to Albany, and coincidentally reports were spread that Justice

ATTITUDE ON BILL CHANGES

ELLISON FOR LOOSE TUNNEL MEASURE.

Amended Proposal Passes. Slush Fund Charged and Lie Passed in Debate.

Special to The Gazette.

DENVER, March 31.—Just before the night session of the legislature was ready to close, Representative Proske, who supported the Moffat tunnel bill, announced that if the house would reconsider the motion which defeated the report of the committee of the whole this afternoon that he would agree to insert the Hollenbeck amendment.

This was done, and with the amendments, the bill was passed on second reading by a vote of 31 to 21. The amendments provide:

First—That the Moffat road must put up good security to guarantee the state against all loss.

Second—That the road must guarantee to build as far as Dotsero or Salt Lake City; and,

Third—That the whole matter must be submitted to the people by a referendum vote. With these amendments inserted the bill received sufficient votes to pass it.

Opponents of the measure feel that they won a victory in forcing the road to guarantee the state against all losses.

Ellison Switches.

A remarkable change of attitude on the part of Representative Ellison of El Paso county, with regard to the Moffat tunnel bill, has been noted during the last few days. He was against the bill at the start, but shortly after his stand weakened. Last Friday, however, he made a speech, in which he said that the tunnel was not wanted. By Monday he was saying that if the bill were properly amended, it might be considered a good bill.

By Wednesday of this week he was speaking for the bill, and this afternoon he voted for it, together with the amendments which compelled the Moffat road to build only to Dotsero and annulled the provision requiring securities from the road for bonds issued by the state. The effect of the bill, as voted for by Ellison this afternoon, would have been to make the Moffat road build only to Dotsero and to make the state pay for the tunnel.

Having voted for it this afternoon in its loose and vicious form, he could hardly fail to support it tonight, when the amendments were added, which he did.

Representative Ginger has stood against the bill throughout, maintaining that if the road is to have a tunnel, the road should build it, as, in effect, the Midland and Denver and Rio Grande have done.

Lie Is Passed.

The scene in the house when the bill was called up for second reading today was exciting. In the course of the debate the lie was passed, and keen parliamentary tactics were made use of.

The passing of the short and ugly word came about as the result of the statement by Representative Walker that the biggest slush fund that had ever been gotten together was back of the bill. He further said that emissaries of some character were constantly passing between Allen and Proske, on one side, to Williams, on the other side, of the house. Representative Williams

DRASTIC STEPS ORDER OF DAY

HITCHCOCK HITS RAILWAY MAIL SERVICE.

Big Shakeup in Officials—Business Methods Found Antiquated.

WASHINGTON, March 31.—Drastic action was taken tonight by Postmaster General Hitchcock in effecting a reorganization of the railway mail service. A dozen changes of the most important offices were made by Mr. Hitchcock as a result of careful investigation and consideration.

The affairs of the railway mail service were overhauled thoroughly, by Mr. Hitchcock principally, and the outcome is the most sweeping change ever made in the history of the railway service.

While signing the necessary orders for the changes, Mr. Hitchcock said: "The investigation which we conducted so long and so carefully indicated clearly that the action which I have taken was absolutely necessary. The railway mail service has suffered from poor management and lack of supervision.

"In certain of the divisions it was found that the chief clerks had not been inspecting their lines as was their duty.

"Some of the routes had received no inspection for several years.

Business Methods Antiquated.

"It was also found that in many instances these officers were giving little or no attention to the sanitary conditions of the employes under them. The inquiry showed that the business methods of the service in several offices were antiquated, and that, as a consequence, there was much duplication of work.

"Instructions from the department directing improvements, as for example the proper consolidation of mail matter and the conservation of equipment, received only perfunctory attention. There has also been a lack of co-operation in carrying into effect certain reforms which I had indicated and it was made evident that no proper spirit of co-ordination with the department existed in the railway mail service.

"The changes which I have made in the executive management of the service will tend, in my judgment, toward the accomplishment in a satisfactory way of the reforms in methods and practices which we have instituted throughout the postal service."

The changes will become effective tomorrow. The necessary transfers will be made as rapidly as possible.

STATE AUDITING BOARD MEETS FOR FIRST TIME

DENVER, March 31.—The new state auditing board, consisting of the five executive officers of the state, created by legislative act, met for the first time today. Organization was effected and the provisions of the bill under which the board will operated discussed. Many bills incurred since the installation of the new state officers were held up, though a goodly number were approved.

Under the provisions of the bill, stringent rules are laid down for the expenditure of state funds. The secretary of the board must approve of every requisition, even those of the Governor, who is ex officio head of the auditing board.

One of the many pitiful scenes hourly enacted at Bellevue morgue, where the charred bodies of the victims of New York's terrible holocaust awaited identification. The photograph shows a woman being led away from the house of the dead after identifying her husband, sister and cousin, whose fire-seared corpses reposed upon the morgue floor with 140 others.

BRYCE AND KNOX CONFER ON TREATY

Arbitration Pact, to Settle Practically All Anglo-American Disputes, in Making.

WASHINGTON, March 31.—James Bryce, the British ambassador, held a lengthy conference today with Secretary Knox regarding the proposed arbitration treaty between the United States and Great Britain. The negotiations are still in a tentative stage. It is said in official quarters that no hitch has yet been encountered and that reasonable progress is being made.

This treaty, the forerunner of its kind, will be presented to the world as a model for the lessening of strife among nations, if it receives the approval of the United States Senate. There is no reason for haste, it was pointed out, and because of the mammoth task which its importance involves, the negotiations will proceed with deliberation. The administration will endeavor to have its completed form ready for presentation to the Senate before the adjournment of the approaching session of Congress.

As far as negotiations have proceeded it has developed that, while the treaty will provide for the arbitration of practically all disputes that may arise between the two countries, including matters relating to questions of honor, it will not provide the machinery for the arbitration of any specific controversy. That will be arranged by special agreements under the treaty in each instance. It can be said on authority that the question of the alliance of Great Britain and Japan causing any obstacles to the successful conclusion of the treaty has never been mentioned in the conferences between Secretary Knox and Ambassador Bryce. Reports that this alliance has halted negotiations were today denied.

WINTER NIGHT CLUB MAY HEAR GOV. WOODROW WILSON

Negotiations Under Way to Have Chief Executive of New Jersey Here at Next Meeting.

Negotiations are under way by the officers of the Winter Night club to secure Gov. Woodrow Wilson of New Jersey, formerly president of Princeton university, to speak at the next meeting of the body, which will be held in about three weeks. No definite word has been received from Governor Wilson, but it is hoped by members that such an eminent educator and statesman can be secured. Governor Wilson is now in the midst of the detailed work of the legislature, and if an adjournment is taken, it is probable that he may arrange to visit here.

8,000 ALIENS ADMITTED TO COLORADO IN 1910

DENVER, March 31.—Over 8,000 aliens were admitted to Colorado during the year 1910, the largest number admitted in the history of the state, according to a report received today by Louis Adams, United States immigration agent, from the commissioner of immigration in Washington. Over 2,000 aliens left Colorado during 1910, many of this number returning to their native heath.

The report shows that a total of 1,040,000 aliens entered the United States last year, while only 350,000 left the country.

RADICAL CHANGES FOR METHODISM

Laymen Ask Longer Pastorates, Greater Representation, New Conference Lines.

NEW YORK, March 31.—The laymen's association of the Methodist Episcopal church of New York, meeting simultaneously with the New York conference, voted with a large majority this afternoon to petition the general counsel to establish diocesan bishops, abolish district superintendents or presiding elders, re-arrange conference boundaries throughout the United States, give lay members representation in annual and general conferences, and extend terms of pastorates from two to five years.

This program, it is understood, embraces the most radical changes confronting Methodists since the days of John Wesley.

Methodists must soon reckon Mormonism among their chief problems, according to Mrs. Jay Leonard Woodruff, Porto Rican superintendent of the Woman's Home Missionary society, which met in conjunction with the conference meeting. She said a minister at Paterson, N. J., had informed her that 20 Mormon missionaries had begun a campaign there within the last week and that he had confiscated more than 600 pieces of Mormon literature distributed among church members.

KIDNAPERS ARE BEING TRAILED

BLOODHOUNDS AND COWBOYS PURSUING.

Bandits Who Stole Rich Attorney's Child Have $20,000 Reward on Their Heads.

LAS VEGAS, N. M., March 31.—Headed for the so-called "bad lands" near the Oklahoma line, four bandits, who kidnaped the 2-year-old son of A. T. Rogers, Jr., a prominent attorney of this city, and compelled the payment of a $12,000 ransom, are tonight closely pursued by a posse, with the prospect of a conflict before morning.

Bloodhounds are being used in the chase and have kept closely to the trail. A telephone message from the Belle ranch, 60 miles northeast of here tonight, said that four men, believed to be the bandits, passed near the ranch, riding at full gallop in a desperate attempt to elude the posse.

Cowboys from the Belle ranch, upon learning of the kidnaping, immediately organized a posse and started trailing the fugitives. They sent word back that they had ropes primed for a lynching in case the kidnapers were captured.

The kidnapers, from description, are believed to be members of the desperate gang of postoffice and bank robbers, all ex-convicts and men who will sell their lives dearly.

Kidnaped Wednesday.

Young Rogers, who is a grandson of Judge Henry L. Waldo, a millionaire of Kansas City, after whom he is named, was taken from his bed on Wednesday night by the kidnapers, who forced an entrance to the Rogers home in this city and at the point of revolvers compelled Mrs. Rogers to surrender to them her 2-year-old child.

The kidnapers left a note for Mr. Rogers, who was absent from the city, saying that the child would be returned unharmed providing the sum of $12,000 was paid in cash.

Under agreement, Mrs. Rogers' brother-in-law went to a point in the mountains miles from Las Vegas, with $12,000 in $10 notes, where two men met him.

After paying over the money, the brother-in-law was directed to a ravine 15 miles in the opposite direction, where the boy was found wrapped in a blanket and asleep.

It was not until after the child was returned to its mother, nearly crazed with fear, that the police were notified. This gave the abductors several hours start of the posse that was sent in search of them.

A reward of $20,000 has been offered for the capture of the kidnapers dead or alive.

DENVER-NEW YORK TRIP ON COLORADO COW PONIES

DENVER, March 31.—To prove the supremacy of the western cow pony, three Colorado cowboys, J. A. Mors, George Harris and John Gobin, will ride from Denver to New York city, starting on April 8. They will have only six horses in their string, each day riding three and using the others as pack animals. They hope to reach New York in eight weeks, thereby establishing a record for long distance riding. They will carry a message from Mayor Speer of Denver to Mayor Gaynor of New York. The six horses they have selected for the trip are the best cow ponies they could find in Colorado and Wyoming.

BLOODY FIGHT INCLINES TO FEDERALS

Two Days' Continuous Battle, near Hermosillo, Has 100 Killed, Many Wounded.

RUMORS OF JUAREZ ATTACK

Bands of Insurrectos Said to Be Gathering for Movement on Sonora's Capital.

EL PASO, Tex., March 31.—The bloodiest and most important battle of the Mexican insurrection fought so far in the state of Sonora has ended after two days stubborn fighting which began Monday near the town of Ures and San Rafael. Although the insurrectos outnumbered the federal forces, their ammunition became exhausted in the continued engagement while the federals were able to obtain reinforcements and additional ammunition from Hermosillo, and the insurrectos were compelled to abandon the field. Although the loss on both sides were heavy, reports of the killed and wounded have been greatly exaggerated and it is now known that not more than 100 were killed on both sides.

The report that the federals had gained a decisive victory in the first day's fight, which were issued by the Mexican authorities, have been denied by mail advices from Hermosillo, however.

The federal wounded have been brought to Hermosillo. The movements of the insurrecto force after the battle are unknown. A rumor that they had captured the town of San Benito has been officially denied by Governer Cubellas at Hermosillo, who also states that there was no fighting in the town of Ures, although the engagement took place near the town. The report that Hermosillo is threatened by an insurrecto force also is unconfirmed.

Persistent rumors are still current that Juarez will be attacked soon, although there is little to substantiate them. Numerous bands of insurrectos have crossed the border near El Paso from the American side recently.

NOGALES, Sonora, Mex., March 31.—Via Nogales, Ariz., March 31.—There is a persistent rumor here that a movement on Hermosillo will be made by the insurrectos before Sunday. In accomplishing this it is admitted that its success will largely depend upon maneuvering so as to keep the federals busy at Ures. It is acknowledged that the insurrectos have a force near San Benito, not far from Hermosillo, and there are also rumors that that town has been captured. Bands are now believed to be on their way to a given point to meet Juan Cabral and then make a rush on the capital of Sonora, depending upon assistance from inside the city.

HOPES NEGROES WILL SAVE SPRINGS "WHITE TRASH"

JUDGE CUNNINGHAM REPLIES TO ATTACKS FROM "WETS" IN WAR OVER LOCAL OPTION.

COLORADO SPRINGS, March 30.—The wet and dry fight has taken on a white heat. Before an audience of more than 1,000 voters that packed Temple theater tonight, Judge Louis W. Cunningham replied to a "newspaper attack" on him by comparing it to the "yelping of a hit cur" and commending "this pet" to the "tender mercies of a lady living in the 800 block on North Nevada avenue," suggesting that she "take Fido home and tweak him."

The attack that aroused Judge Cunningham was in effect that in leading the fight to keep Colorado Springs dry "he was not as contemptible as the ministers from whom better things were expected."

In concluding his address and making a hurried departure to speak at two other meetings, one of them a gathering of negro voters, Judge Cunningham declared that he would appeal to the negro voters to "save the poor white trash in the North end."

Tonight's meeting was featured by Judge Ben B. Lindsay. School children participated in singing and speaking. They displayed banners, captioned with "Vote NO for me" and "How much am I worth?"

Other speakers were the Rev. James H. Franklin of the First Baptist church, the Rev. Merle N. Smith of the First Methodist church and N. S. Gandy.

Judge Lindsay's address was a plea for a continuance of local option in Colorado Springs on the ground that the child should be protected in order that the home and state might be saved. He declared that the liquor interests in Denver were predicting a wet victory in Colorado Springs.

"You have no right to put dollars above mankind; no right to put booze above men," he said.

CUNNINGHAM,

Dry Oracle of Old Town,

DOESN'T LIKE

"White Trash of North End"

The accompanying interesting article is reproduced from yesterday's Denver News to show "the poor white trash in the North End" of Colorado Springs the kind of advertising which Judge L. W. Cunningham, of Colorado City, is disseminating from the prohibition stump. Incidentally, it shows Cunningham's exalted opinion of the white citizens of Colorado Springs, and helps explain his preference for the more congenial atmosphere of Colorado City. And finally, it suggests which particular section of Colorado Springs he will probably choose, in order to find neighbors to his liking, in the unfortunate event of his deciding to move to this town and at the same time avoid the abode of the "poor white trash."

In an editorial printed last Thursday The Gazette characterized Cunningham's antics on the stump as "contemptible hypocrisy." Viewed in the light of his performance at the Temple Theater Thursday night this designation was prophetic. The term fits

AMERICAN DERBY TO HAVE FIVE STARTERS

JACKSONVILLE, Fla., March 31.—The American Derby, the rich event for 3-year-olds, at a distance of one mile and a quarter, which will be run on the last day of racing at Moncrief tomorrow, probably will be the last stake horse race to be run in Florida. Horsemen are inclined to be downcast at the outlook for racing in this state.

In the Derby five starters are named, with the Nigger carrying 111 pounds and Star Chamber with the same weight, being public choices before the race. Governor Gray, 118; Dr. Duenner, 111, and Messenger Boy, carrying top weight at 118 pounds all have a chance, and the finish should be close.

The race has a value of $6,000. Koerner will ride Star Chamber; Loftus, the Nigger; Dugan, Dr. Duenner; Byrne, Governor Gray, and Brann, Messenger Boy.

ATTELL BEATS BURNS IN WHIRLWIND FIGHT

NEW YORK, March 31.—Abe Attell, the featherweight champion, outclassed Frankie Burns, the bantamweight of Jersey City, at the National Sporting club tonight. Attell took the risk of making 118 pounds at ringside which he did for the first time since he became champion of his class.

Although Burns was the aggressor, the champion with his ring generalship, outpointed him, notwithstanding that his left arm was almost useless by lefts which Burns delivered on his elbow and shoulders in the fourth and sixth rounds.

It was an injury to this arm, which had kept Attell from the ring for the last few weeks, and after Burns' blows he fought almost all of the remaining rounds with his right. In the ninth round he sent Burns to the floor with a right swing, for the count of nine, and with exactly the same blow he turned the trick again in the final round.

Wolgast Rallers LaGrave in Short Fight; Wins in Fifth

AUDITORIUM PAVILION, SAN FRANCISCO, March 31.—Lightweight Champion Ad Wolgast made short shrift tonight of Anton La Grave a rather obscure local fighter. Wolgast battered his opponent about the ring, landing whenever and wherever he choose.

La Grave's seconds threw up the sponge after about two minutes fighting in the fifth round, as it was palpably apparent that La Grave would not last the round out.

The fight was too one-sided to be interesting. Wolgast took command of affairs at the very outset, and the "Butchertown idol" was never given an opportunity to rest or land a return blow.

In the second round the champion almost brought the bout to a quick ending by sending La Grave through the ropes with a terrific left to the jaw, and followed this by flooring his man for the count of nine. In the fourth round La Grave took the count four times, and at this stage the spectators loudly importuned Referee Jack Welsh to stop the fight.

The fifth round found Wolgast beating an almost helpless fighter, and, realizing that La Grave could go no further, his seconds intervened and threw a towel into the ring. The men fought at 133 pounds ringside. Wolgast was an overwhelming favorite at odds of 10 to 4, and there were few ready to risk their money on La Grave's chances. There was, however, some betting at even money that La Grave would last 15 rounds.

Disbrow, in a Pope-Hartford, Makes More World's Records

JACKSONVILLE, Fla., March 31.—Taking the lead in the first mile and never being headed, Louis Disbrow, driving a Pope-Hartford, won the 300-mile automobile race over the Antlantic-Pablo beach course today.

The time was 3 hours, 53 minutes, 33½ seconds, lowering the world's mark for 50 miles, held by Fletcher, made in the DeDietrich in 1905; the 200-mile record made by Tobin De Hymel last year, and establishing new world's records for 250 and 300 miles.

The contest was the only event run for the final day's tournament. The drivers were called to the wire at 11 o'clock. Bob Burman, who was entered with his Prince Henry Benz, was supplying his car with fuel and arrived at the line too late to start.

Two blue Nationals gave the red streak which Disbrow was driving a merry chase, and Howard Wilcox crowded the little pilot to the limit for the first 100 miles, when he experienced trouble on the Atlantic arm of the course. He was followed in the chase by Merz at the wheel of another National, who had trouble previously, and when Wilcox came back into the contest later in the battle, he was hopelessly out of the running. Merz finished second in 4 hours 15 minutes and 18 seconds. Hughie Hughes in the Mercer, was declared the winner of third position by the officials, but Lewis Strang filed a protest, saying he finished more of the contest than Hughes.

Strang drove his Case car 280 miles and finished strong when stopped by Starter Fred Wagner, and was in third position, having passed Hughes, who had broke down three miles from the tape. The timers took their records from the 270-mile distance.

Application was made by the automobile club here to hold another beach racing meet next spring and it is thought the A. A. A. officials will grant the request.

STAR GOLFERS MEET TODAY

PINEHURST, N. C., March 31.—West and East will meet in tomorrow's 36-hole final of the eleventh annual united North and South amateur gold championship as a result of today's first and second rounds of a series of remarkable plays.

The survivors of the championship are Charles Evans, Jr., of Edgewater, widely known in the golfing world, and Robert Hunter, of Wesburn.

AT JUAREZ

JUAREZ, Mex., March 31.—Chapultepec, a 2-to-1 second choice, defeated the 11-to-10 favorite, John Griffin, in the 5½-furlong sprint at Terrazes park today. He stepped the distance in the fast time of 1:05 3-5. Chapultepec was pinioned in on the rail in the stretch, but bumped his way through and won by a head. Jockey Rooney rode three winners.

TWO MORE RACERS DUE TO ARRIVE AT EARLY HOUR TODAY

Two automobiles, the Locomobile and the Everett, will be driven from Denver to Colorado Springs early this morning in an attempt to lower the record established two days ago by Fred Hall in a Lozier.

The first car, driven by Lynn Mathewson, will leave Denver promptly at 5:30 this morning. It is believed that it will make the run in about an hour and 35 minutes. The Everett, driven by Martin Fletcher, will leave Denver at 6 o'clock, and it is estimated that its time will be about the same.

Director of Public Safety Whitaker and Chief of Police Armstrong decided last night to allow the machines to come down Cascade avenue to the stopping place, the Antlers hotel, without observing the speed ordinance, and from the interest being taken in the speed trials there will doubtless be a large crowd out to witness the arrival of the cars this morning.

The police, under direction of the chief, will patrol Cascade avenue this morning at the time the cars will arrive, and many automobile men who are interested in the speed tests will also aid the authorities in keeping the street clear for the few minutes that Mathewson and Fletcher will be on city property. Starting at Denver the authorities all along the line have given permission to the cars to make fast time.

COMMISSION MEN AND ROBBINS AT ZOO PARK

For the first game of the season the recently organized Robbins baseball team will play the Commission Men at Zoo park tomorrow afternoon at 2:30 o'clock. The lineup:

Robbins—V. Deal, cf.; Hyatt, 3b; Rahm, ss.; Fuller, p.; Bruce, c.; F. Deal, 2b.; Long, 1b.; James, lf.; Fowler, rf.

Commission Men—W. Allen, p.; Puffer, c.; Adams, 1b.; O. Allen, 2b.; Ady, ss.; Patterson, 3b.; Hesser, lf.; Brill, cf.; Johnson, rf.

On April 9 the Robbins team will play the Denver All-Stars, and on April 16 the Annunciation nine, holder of the Denver city championship.

News of Local Courts

WIDOW BRINGS SUIT TO REGAIN TITLE TO LAND

Mrs Julia Brophy an elderly widow of Colorado City has brought suit in the district court to regain title to her residence property in Colorado City valued at $2 500 which she traded recently for 160 acres in Loup county, Neb. The complaint alleged that B. C. Hayes, A. H. Knight and J. L. Cooper, real estate agents of this city misrepresented the Nebraska property and that the transfer was made solely on their statements of its value.

It is also alleged that one of the men pretended to be the owner of the land and that a criminal case may follow. Attorney Dolph of this city is representing the plaintiff

In the district court yesterday attorneys for the defense in the case of William O'Brien against the Florida Fruit Lands company and Richard J. Bolles filed a motion to make more specific the allegations in the complaint. The suit is for an accounting of money paid Bolles by the company, O'Brien alleging that he had a partnership agreement with Bolles O'Brien alleges that he contributed about $2 500 for the use of the alleged partnership

Canon City Invites Springs to Take Part

The Chamber of Commerce has been invited to send a delegation to Canon City on May 13 when a celebration in honor of the opening of the road to the top of the Royal Gorge will be held. Secretary Henderson yesterday received a letter from H. S. Maddox, secretary of the Canon City Commercial club, asking that such arrangements be made. The celebration will open May 12 with a flower festival in Canon City, and the following day the crowds will move to the top of the gorge where a program will be given. A barbecue will be one of the features. Prominent men from all sections of the state, including Governor Shafroth, will be on the program.

The good roads movement in the state received an impetus from the recently completed automobile road between this city and Canon City and autoists all over the state are interested in the steps being taken. The road to the gorge is being built by convict labor and will be another attraction for autoists in this region.

SHAKEUP IN SCHOOL OF MINES TRUSTEES

Victor C. Alderson, President, May Lose Job—Politics Barred in Future

DENVER, March 31—The Post today says

Before another month closes it is more than probable that the dominant factors in the School of Mines at Golden will have been eliminated and the institution taken out of politics

With the fall of those now in control will probably drop the official head of Victor C. Alderson president, whose contract of five years will soon be up and whose removal is demanded by many of the alumni and students

The upheaval is to be brought about by the new board of trustees. There will be three of them named in the next 40 days and before they go into office they will have to pledge themselves to forever keep the school as far as political matters are concerned, and compel every ... to hold his or her job through his merit

Governor Shafroth is not going to depart from the established custom of recognizing the powerful alumni association of the school and in accordance with their desires as expressed in a referendum vote he has let it be known that he will appoint Frederick Steinhauer a member of the board. Steinhauer, who is connected with the engineering forces of the city park board, was elected by the alumni over two others. Steinhauer is a Democrat, as are Frank Buckley and James Smith. Two Republicans are to be named to take the places of Jaffa and Lewis.

FISHER AFTER COAL ON FORT LEWIS RESERVATION

Ballinger's Successor Would Reserve Resources Near Lands Granted for Special Purposes

WASHINGTON, March 31.—One of the policies inaugurated by the new secretary of the interior Fisher is the reserving to the government of the resources contiguous to lands granted for specific purposes. He has declined to approve townsites on Indian reservations until it has been definitely determined that the plats do not contain water power sites or coal lands

The secretary recommended to the President today legislation providing explicitly for the "use" of the lands in the Fort Lewis Indian reservation in southwest Colorado which Mr Ballinger, while secretary of the interior, found to contain from $1 000 000 to $2,000,000 worth of coal. Congress once authorized Colorado to take over the Fort Lewis lands.

After the state had failed to accept this grant Mr Ballinger learned of the coal value of the property and he recommended a repeal of the law which permited Colorado to take the lands. Congress did not act on this recommendation. Meantime the legislature authorized the government to accept them

The purpose of the legislation proposed by Mr Fisher is to have the coal underlying these lands remain the property of the United States and to permit Colorado to use the surface only

Gets Block of Stock if She Stays Single During Next Six Years

LOS ANGELES, March 31.—Terms of an unusual contract, whereby Miss Leila M Devine, secretary of a local corporation, has agreed not to marry within 10 years, the consideration being a large block of the corporation's stock, were given publicity today. The contract was drawn up and signed four years ago when Miss Devine was 24 years old and if she is still unmarried when she becomes 34, the stock will be turned over to her. If she marries before the 10 years expire, the stock reverts to the company.

"I will never marry" Miss Devine said today. "When I agreed to remain with my employers I was fully aware of what I was doing. They appreciated my services and made me a stockholder in the company, so why should I leave them to be bossed by some man after I have been used to bossing them for years? I have never wanted to marry and now I believe after my long experience as a business woman I have been spoiled for married life. I would not know what to do with myself as a mistress of a home after so many years of business activity."

THE MAY CO

J. A. O'GORMAN

(Continued From Page One.)

O'Gorman had been selected as the choice of the Democratic organization. The insurgents who had about made up their minds to enter the caucus upon the assurance that no names would be submitted outside of their list of eleven balked at this changed program. They failed to appear at the morning caucus and a postponement was had until 3 p m

Meantime a committee representing the regulars was arguing with the insurgents who were in conference at the home of their leader Senator Roosevelt and finally 14 of them voted to put an end to the struggle by accepting Justice O'Gorman. One insurgent did not vote and the other eight were recorded against this proposition.

It was about 5 o'clock when the caucus reconvened. As a contingent of insurgents filed into the chamber, a burst of applause greeted them

"It's O'Gorman" some one yelled and then the din became deafening. And O'Gorman it was when the first ballot was concluded. The vote for O'Gorman was made unanimous

Senators Roosevelt and Burd followed by other insurgents who had not participated in the caucus filed into the chamber to mingled cheers and jeers.

"Tam-ma-nee" sang out someone, and half the members joined in the chorus drowning the voice of the speaker. In vain he pounded the desk with the gavel. Members were hugging one another in their joy at this ending of the weary struggle and they continued to howl and sing and scream

"The house will please be in order," persisted the speaker

"Yow yow" screeched the assemblage "Tam-ma-nee" "Tam-ma-nee!" It was some minutes before quiet could be restored and the formal ratification of the caucus decree began

When the name of Senator Brackett, minority leader was called he arose and taunted the insurgents, saying that after they had refused to support one man the choice of a majority of the party because of his relations with Tammany Hall they had finally joined in the election of one who has been infinitely closer to and more potential in that organization than has Mr Sheehan

"Two months ago," said the insurgent leader Senator Roosevelt "several Democrats felt it was their duty to dissent from certain of our party associates in the matter of selecting a United States senator. We have followed the dictates of our consciences and have done our duty as we saw it

"I believe as a result the Democratic party has taken an upward step. We are Democrats—not irregulars, but regulars. I take pleasure in casting my vote for the Hon James A O'Gorman"

James A. O'Gorman has long been one of the leading members of Tammany Hall and one of its foremost orators for 30 years. He established his reputation as a public speaker when 21 years old. His eloquence then was credited with having saved a doubtful assembly district

Mr O'Gorman was born on the lower west side of New York city on May 5 1860. He is the son of Thomas and Ellen O'Gorman and married Anne M. Leslie on January 2 1884. They have nine children seven daughters and two sons

After finishing a course in the public school Mr O'Gorman as a lad of 17 entered the College of the City of New York and later attended the University of New York law school graduated and was admitted to the bar in 188...

From the time he cast his first vote he aligned himself with Tammany Hall which favored him generously. In 1893 he was elected a justice of the municipal court and in 1899 was elected a justice of the supreme court for a term of four years from January 1900. His salary has been $17 500 almost ... times what he will receive as United States senator. And he had almost three years to serve while as a senator he has six years.

The new senator is a ... Lawyers ... Medico ... Society ... Friendly Sons of St. Patrick New York Athletic club Champlain ... Royal Arcanum and other organizations. He ... the honorary degree of doctor of laws ... New York university ...

Mr O'Gorman tonight ... senators ... He favors ... government ... private ... nationalism and to the centralizing tendency of the Republican party.

Boys! Here's the Shoe that Captured the Country!

Here's the shoe you have been reading so much about in the magazines—the "Boy Scout"—the shoe that has taken the country by storm. Never has a shoe created so much excitement—never has a shoe created such a sudden tremendous demand as the great "Boy Scout" Shoe now in town and ready for your inspection.

Wonders for Lively Boys

"Boy Scouts" are the "classiest" shoes ever made for rough and tumble wear. They outwear two or three pairs of ordinary shoes. Just the ticket for baseball, running, jumping or any outdoor sport. Every boy who has seen them is crazy for a pair.

$2 to $3 Little Boys'—Sizes 10 to 13½—$2.00 Boys'—Sizes 1 to 5½—$2.50 Big Boys' and Men's—Sizes 6 to 10—$3.00

Colors—Olive, Tan and Black

The "BOY SCOUT" Shoe

The soles are made from Elk Sole Leather—the toughest and best sole leather there is. Our secret process of tannage makes them wear from two to three times as long as common soles. And they're the best shoe you could get for your feet, too. They're made especially for growing feet and feel fine the minute you put them on. The uppers are made from Elk Skin Leather and are as soft as gloves. There are no linings to rip apart, tear your stockings and hurt your feet. "Boy Scouts" are the coolest and most healthful shoes you could buy. The soles are put on so good you can't pull them loose no matter how rough you are.

Just tell your folks about them, boys. They'll want you to have a pair. Maybe your pa will want a pair, too. Ask him to bring you in and look at them himself. He'll be just as delighted as you are.

Good Luck Charm FREE. "You get a Swastika" Good Luck Charm with every pair of "Boy Scout" Shoes you buy. And it's a dandy. Looks something like the picture in the corner of this ad, only it is bright and shiny, like a gold piece—and it stays bright, too. Makes fine prize for winners of ball games, races, etc.

"Boy Scouts" are selling fast. Better call right away: if you don't you'll have to wait until we can send for more.

WOMEN AND THE ELECTION.

SAYS a prohibition pamphlet:

"If the town goes wet woman suffrage will receive a severe setback. What is the value of woman suffrage? This contest will show."

This contest will show nothing of the sort. Neither will woman suffrage receive a severe setback if the town goes "wet" though it may be added that there is not the slightest danger of the town going wet, because the only wet proposition before the people is Ordinance No. 2, which has not a ghost of a chance of being carried.

The absurd appeal to women to vote solidly for prohibition in order to vindicate the principle of woman suffrage is wholly illogical and unreasonable. Women are, as a rule, bitterly opposed to the evils of the liquor traffic, but it certainly does not follow that they therefore favor prohibition, for it has not been proven that prohibition is an effective cure for those evils. On the contrary the preponderance of evidence shows that many of the evils incident to the use of liquor are actually increased by prohibition, while additional evils are created which are unknown under an effective license system.

If women are to make the most intelligent, and therefore the most effective, use of the ballot, they cannot permit themselves to be stampeded by a specious plea to vote a certain way, through fear that if they do otherwise somebody might construe the action as a reproach to the cause of woman suffrage. No proper distinction can be made between the way women should vote and the way men should vote, for it is plain that both sexes should determine this question by the one test of right and commonsense. It is our opinion that a very large majority of the women of Colorado Springs will decide which way their ballots shall be cast next Tuesday by this test.

WOMAN VOTE CANNOT BE CORRALED. The issues of the present campaign have been thoroughly discussed for more than three months, and every voter, man and woman, has had abundant opportunity to reach a decision based on personal conviction. The women who believe that the liquor problem in Colorado Springs can be most effectively solved under the license system will vote for the repeal of the prohibition law and the adoption of ordinance No. 1, regardless of the appeals of those who affect a leadership they do not possess, and which is disdainfully repudiated by the very women whose votes they pretend to control.

Indeed, it has been shown in more than one election that the "woman vote" cannot be corraled and herded to the polls to serve the personal vanity and ambitions of some self-seeking woman politician, and the assumption by such "leaders" that this can be done is an insult to intelligent womanhood which merits the rebuke it receives. It [illegible] may not be true that women cast [illegible] of the total number of votes in Colorado, but to try to round them up as a vote them in a solid body is a political trick which smacks too much of the methods of the [illegible] boss who herds a gang of ignorant foreigners to the polls on election day to be tolerated by the wives, mothers and daughters of Colorado Springs.

To display an intelligent interest in political affairs is the plain duty of the patriotic citizen of either sex and the woman who [illegible] the obligation which the right of suffrage confers upon her need make no apology for it. The average woman is quite as intelligent as the average man [illegible] in Colorado [illegible] equal suffrage has [illegible] political affairs [illegible] political subjects [illegible] candidates and measures, mark her ballot and place it in the ballot box without the advice or assistance of the imitation Pankhursts.

We believe that if there were a way to find out, accurately, just how the women vote on the license question next Tuesday the showing would justify this assertion.

FOR THE COUNCIL.

DISCUSSION of the license question has so absorbed public interest for several months past that comparatively little attention has been given to the approaching election of two members of the City Council. Yet this is, as always, a matter of prime importance, and the choice of Councilmen next Tuesday is especially important because members are to be elected for the full term of four years each.

In making an intelligent choice between so many rival candidates the voter must necessarily be guided largely by their records. If the matter were determined entirely by this test there would be no doubt whatever as to the re-election of Mr. A. J. Lawton next Tuesday, without waiting for the second election. Mr. Lawton has been in the Council since the commission form of government became effective in July, 1909. His work as an alderman charged in part with the responsibility of the City government as a whole has been highly efficient.

But Mr. Lawton's chief claim to public favor is based on his service as Commissioner of Public Works and Property. He has been Street Commissioner not merely in name but in fact, and his intelligent interest and untiring activity are responsible for bringing this department to a high state of efficiency, sometimes in the face of obstacles for which he was in no wise to blame. It is not too much to say that his re-election to the Council and continuance at the head of this department are almost a public necessity.

For the other position in the Council there is no other candidate so well fitted by reason of experience in the management of public affairs in Colorado Springs as Mr. F. L. Rouse. Mr. Rouse served for several years on the Board of County Commissioners where his influence was of great value in securing an economical and efficient administration of public affairs. He is a pioneer citizen of Colorado Springs and a heavy taxpayer, and his election to the Council would be a valuable acquisition to that body.

Sunflower Philosophy

BY WALT MASON

I went to roost without a dime, and there I lay for hours and dreamed that I was John D. Morganheim, and wealth into my coffers streamed. I watched my speedy minions flee to dump the bullion in the banks, and sleuths forever walked with me, protecting me from wicked cranks. The world sent forth its host of bores, and mendicants in serried squad filled all the landscape out of doors, and tried to touch me for my wad. And [illegible] coin away; they poked me sorely in the slats, and kept me humping, night and day. In solemn state I seemed to sup, and sleepless tossed upon my bed, and interviewers called me up and twisted everything I said. I had no pleasant hours—to while away at games I loved before! I mounted guard upon my pile, and counted sacks of gold and swore. I had no friends, I had men's hate, and I suspected other men of low down schemes to swipe a crate of my long green, and then again. I had no comrades, uncles, aunts, and all my kindred eyed my till, and changed to cringing sycophants that they might figure in my will. And O, the joy when from this dream to cheerful poverty I woke! I uttered one long gladsome scream, and cried, "Thank heaven, I am broke!"

THE DAILY CHIT CHAT

-BY- RUTH CAMERON

"Now boys just a moment" you've all had your say
While enjoying yourselves in so pleasant a way,
We've toasted our sweethearts, our friends and our wives,
We've toasted each other wishing all merry lives.
'Tis one in a million and outshines the rest;
Don't frown when I tell you this toast beats all others—
But drink one more toast, boys, a toast to 'Our Mothers'

One of my correspondents has asked me to tell [illegible] origin and meaning of "Mothers' Day."

Mothers' Day was inaugurated by the churches of Minneapolis during the Chapman-Alexander evangelist campaign there.

It was suggested by Dr. Henry A. Ostrom, whose own mother had died about a year before this time, and who felt that the young people might be especially touched and the old people honored and pleased by the observance of such a day.

Mothers' Day was celebrated first on April 12 and is supposed to be celebrated every year on the Sunday nearest to that day. That would bring it Sunday, April 16, this year. What effect the fact that Easter comes on that day will have, I do not know.

The idea of the evangelists was to have a day especially [illegible] mothers just as Children's Day [illegible] the children. On this day in the churches [illegible] sermon is preached [illegible] and great efforts are made [illegible] and the use of carriages and [illegible] the older women who [illegible]

[illegible]

Mothers' Day is primarily a church holiday but please don't let that prevent those of you who are not affiliated with any church from feeling that it is up to you to help celebrate it.

If you still have your mother right in the home with you, why not make April 16 a day of special kindness and thoughtfulness for her, a day when you do not say a single cross or impatient word, a day when you give some unexpected caress that will mean so much to her, and say some unexpectedly tender thing about what a very wonderful mother you happen to have.

If you are separated from your mother why not make April 16 a day to surprise her by bridging the distance between you, if it is possible.

And if that is not possible, you can at least write an unusually tender and loving letter that shall send a glad thrill of sweet surprise to her heart when she receives it.

Some, I know, are reading this and thinking, "Ah, if I only COULD do some of these things. But my mother"—and then the eyes fill with tears of aching memory and the heart—no matter how blameless—accuses itself, "If I had only been kinder."

Dear people, "Mothers' Day" must be a sad day for you, of course, but why not sweeten the sadness by reading your mother's Bible, going to your mother's church, and by performing your loving kindness to some other mother somebody's mother" as lonely for a lost son or daughter as you for your lost one.

In this way there shall be three made happier—the lonely mother, yourself and—yes, I believe it—the little mother in heaven who will be away smiling down in approval.

Remember all, April 16, 1911, "MOTHERS' DAY."

OPEN PARLIAMENT

THE LICENSE QUESTION.

To the Editor of The Gazette:

Let me quote an old versicle, the author's name I forget at this moment, which says

"What's done we partly may compute
But seldom what's resisted.

Will our fellow philanthropists deny that every man is personally responsible to God for his acts, his will is his own possession, therefore advocate this in every possible way but do not emasculate it by placing him in a Garden of Eden where no apples exist. Life is a fight, and the strong and brave eventually conquer. Is there not a promise "to him that overcometh."

Again, why will prohibitionists persist in saying that under license a man can go into a back stool in a drug store and get drunk, or into any street or alley and do the same? Those who can read the ordinance, No. 1, know that this is false, and yet are not ashamed to promulgate an untruth. They know that were such a state of things possible the license of the offending druggist would be forfeited forever in this town.

We women are apt to "follow our leaders;" let us now use the brains we are endowed with, and before we vote at least know for what we are voting. Inebriate homes and hospitals are desirable, [illegible] turn our city into such an institution, and legislate only for sots and demi-sots, when we have thousands of self-respecting men and women as anxious to stamp out the curse of drunkenness as the most assured prohibitionist can be, differing, it is true, as to the methods to be pursued. Let there be no assumption of motive without proof.

All honor to those who sacrifice private gain to the public good, as Mr. Masterson is now doing openly and above board. All God's gifts are good, all men's wills are free; let each choose for himself, remembering a wise saying, "Resist the devil (or evil) and he will flee from you."

WOMEN'S RIGHTS OF CITIZENSHIP.

To the Editor of The Gazette:

A superstition especially prevalent at election time, and widely held by election judges, has again bobbled up serenely. It was recently announced through the press that last Saturday a lady, born in America, has been refused the right to register because she had married an unnaturalized foreigner.

The doctrine that an American woman, a citizen of this country by birth, loses her rights of citizenship upon her marriage with an alien, although both she and her husband continue to reside in this country, is repellant alike to common sense and to law. The marriage of a female citizen with an alien does not necessarily lead to the proposition that she herself is to be considered an alien. This question has been decided a number of times by the federal courts. In Ruckgaber vs Moore, 104 Federal, 947, it is decided by the federal court:

"That the political status of a wife follows that of her husband with the modification that there must be withdrawal from her native country, or equivalent act expressive of her election to renounce her former citizenship as a consequence of her marriage."

This question has also been considered by the attorney general of the United States. See volumes 10 and 15, opinions of the attorney general.

The qualifications required of an elector as laid down in article [illegible] section 1 of the constitution of Colorado, are simply that the intending voter, whether male or female, shall be over 21 years of age a citizen of the United States, a resident of the state for 12 months and of the county, city, ward or precinct for such time as may be prescribed by law.

When the registration committee declined to allow the lady in question to register, basing their decision on the sole ground that she had lost her citizenship by marriage to an unnaturalized foreigner they disfranchised, without warrant of law, a voter who was qualified by the constitution and statutes of Colorado and by the decisions of the federal courts, to vote at this coming election unless she had expressly renounced her right of American citizenship either by withdrawal from her native country or equivalent act expressive of her election to renounce her former citizenship.

As the lady personally appeared before the registration committee, she had not left her native country, and her desire to register and vote is pretty good proof that she had not renounced her citizenship.

It is evident that the registration committee [illegible] as conversant with the law as they [illegible] and through mistaken zeal denied an American citizen a right which is expressly granted [illegible] Colorado to women.

A MESSAGE TO THE WOMEN.

To the Editor of The Gazette:

I ask the courtesy of space in your Open Parliament for the following letter to the women of Colorado Springs.

Upon my return to this city last week, after an absence of four months in states where women do not vote, I am more than ever glad that I live here in Colorado where the measures that women stand for can be vitalized and enforced by the ballot.

Naturally I am intensely interested in the present situation regarding the liquor question.

It is my belief that the great majority of women everywhere are opposed to the liquor traffic, because they are the ones who ultimately suffer most from it, and they can see clearly that in its worst form, as embodied in the open saloon, it is an unmitigated evil, vicious, dangerous and demoralizing.

To the honor of women, be it said, that as a class they do not compromise with wrong. When they can once see definitely that a thing is bad and immoral they can be depended upon to stand solidly against it. If the open saloon is bad—and the aggregation of citizens back of the high license ordinance admit that it is—then, according to a woman's reasoning the licensed drug store and hotel is as bad or even worse, because they are more insidious, having the appearance of quasi-respectability, while they are in reality only a more elegant and exclusive adaptation of the open saloon.

We can see through the specious arguments in favor of high license, a great deal of it is mere clap-trap.

We may grant that the present prohibitory law is not enforced, but we do not grant for a moment that it can not be enforced.

When we had the license system before, that law was not enforced and drug stores became so bold that they sold drinks over the counter, and in despair and disgust the citizens held a mass meeting in Temple theater to devise some action by which they could control the matter. At that time we were at the mercy of political rings and bosses, but now, under the charter, we have the right to initiate legislation and to recall officers who fail to do their duty. Our newspapers tell us that our officers admit that they can not enforce the prohibitory law. To just a plain woman who is not supposed to have a logical mind, it seems startlingly clear that the present situation calls for the removal from office of the man who admits that he is not equal to his job—instead of the adoption of an ordinance to legalize for money the present violation of the law. I believe the women at least can see that to vote to license the sale of liquor now, would be to repudiate the responsibilities of citizenship and to acknowledge our utter inability to control our city government. That the women of Colorado Springs will allow the adoption of a public policy of licensing the liquor traffic I do not believe, and it depends on us. There is no question about that. We can control the matter absolutely if we stand together.

We polled 52 per cent of the total vote cast in the Roosevelt election. Let us not forget that. And we can do it again. We have the power in our own hands to settle this matter. Then let us come forward on April 4 and vote "no" with such emphasis that the liquor element in this city will know that there is no hope for them in the future. And we are being watched by sister states all over this union, who are weighing in the balance the effects of woman suffrage for good or evil in the states where it is operating.

Why, I have on the desk here beside me the report of the 16th and latest convention of the National Municipal league, held recently in Buffalo, N. Y. Miss Mary Winsor of Philadelphia read before an audience of hundreds of people her report on the "Practical Workings of Woman Suffrage." Her report was based on 50 letters received from "prominent" citizens of Colorado, in which they answered more or less accurately and fully a list of 21 questions as to the effects of woman's suffrage in this state, among which were the following:

What reforms have been brought about in your city by the assistance of the feminine vote?

Has the liquor evil been diminished?

In your city do women vote in considerable nunmbers?

Do immoral women generally vote, and is their vote controlled by the police?

Among the letters received from Colorado Springs, were two, one from Mr. J. Arthur Connell and one from Mr. Robert W. Chisholm.

Doubtless these citizens will be glad to have their expressed views given wider publicity through The Gazette.

On page 321 of the above mentioned report, Mr. J. Arthur Connell is reported to have answered that "decidedly the worse class of women voted, and that most of the women of his acqaintance disliked going to the polls and only did so at the urgent request of husband, father, or other male relative." Mr. Connell stated that no reform had been accomplished in his city by the help of woman suffrage.

We are sorry that Mr. Connell's experience has been so unfortunate and that his acquaintance among the efficient women citizens of Colorado Springs has been so limited.

On the same page Mr. Robert W. Chisholm is quoted to the effect that woman suffrage "had made good government in his state more difficult, as all the worse class of women voted, whereas the better element had lost interest."

I am sure that the women of Colorado Springs will welcome this opportunity to give these gentlemen an object lesson in what women can do at the polls for good government by casting an overwhelming vote against licensing the liquor traffic in order that the further testimony of these prominent citizens should they be asked for any may be of a more cheerful nature and more helpful to the cause of woman's suffrage in general.

Then let us stand together and vote "no" on April 4 and when we have won let us not stop there but let us keep an eye on the Commissioner of Public Safety, Mr. F. [illegible] Whitaker whose duty it is to enforce the law and [illegible] of recalling him, and give us the chance to elect a man who is not only willing but able to enforce the law.

IN THE EARLY DAYS

THIRTY YEARS AGO TODAY

April 1, 1881.

Matthew Kennedy, who had been nominated for mayor at the Prohibition caucus a few days previously, refused to accept the nomination.

Matt France, D. J. Martin, Irving Howbert and B. F. Crowell, who had been nominated for mayor and aldermen on the Citizens' ticket, withdrew their names and refused to run.

Fourteen inches of snow fell on Pikes Peak.

Two ladies fell into an open cellarway on Tejon street just north of the Opera House and were badly shaken up.

TWENTY YEARS AGO TODAY

April 1, 1891.

A bright sun and a warm wind disposed of the greater part of the heavy snowfall of the day before.

A call, which had been made a few days previously, for an independent city convention, was withdrawn.

David DeGraff and family returned from a visit to California.

The City Council held a special meeting, to dispose of outstanding accounts.

Seven Famous Beaux

History has always attached much importance to the Number Seven. "Of all numbers there is no one which commanded, in a higher degree, the esteem and reverence of mankind." The Gazette has taken this charmed number, and has woven into stories on a variety of subjects a Series of Sevens, beginning each Monday and continuing during the week.

NO. 6 BENJAMIN DISRAELI

Benjamin Disraeli, although a man of letters, and a British statesman of much note, during a considerable period of the past century, yet, in spite of his various duties of state and literature, he found an abundance of time to mingle in all the gayites of the fashionable world. Hundreds of amusing stories are still related about this Nineteenth century Beau Brummell, who became the first Earl of Beaconsfield, about his exaggerated dress, his manners and his amplified style of conversation.

One lady declared that she had seen him at a party in green velvet trousers, and a black satin shirt. He was said to have delighted in shocking the respectability of decorous celebrities by the most startling moral paradoxes, and, in fact, to have done everything that good taste should have prompted him not to do.

Disraeli was so for nettled by some of this gossip many years afterward that he wrote to the editor of an evening paper to declare that he never possessed a pair of green trousers in his life.

He is described by his biographer at this period as "a thin, pale, dark-complexioned young man, with long black ringlets and the wearer of dandified costumes."

Disraeli was born in 1804, and he was only 22 years of age when his famous book of "Vivian Gray" made its appearance. This story became at once famous, that it assisted him well in his desire for notoriety at this time. It may be possible that many of his eccentricities at this time were not due to a knowledge of what was and was not in refined taste, but instead that they were feigned in order to bring the attention of the public more in his direction for personal reasons. If that was his idea it succeeded well.

When he [illegible] Parliament and made his maiden speech, it was so much in the grand style and was delivered with so many extravagant gestures that it excited ridicule. Much disconcerted, Disraeli stopped abruptly, making however, the prophetic remark. "I shall sit down now, but the time is coming when you will hear from me."

It is commonly believed that when Disraeli undertook to describe Sidonia in his novel, "Coningsby," he looked in the glass, and simply made his own portraiture when he wrote "He was admired by women, idolized by artists, received in all circles with great distinction and appreciated by the very few to whom he at all opened himself."

In private life, Disraeli is said to have been kind and constant in his friendships, liberal in his charities and prompt to recognize and assist struggling merit wherever his attention was directed to it. In general society he was not a great talker, and few of his criticisms have been preserved which were not uttered on some public occasion.

Later in life, after he had become prime minister, he laid aside many of his foolish ideas in regard to dress but he always continued to wear clothes of a peculiar cut a neckerchief of some gaudy color, and a hat of an unusually queer shape for the period, which made him an object that never failed to attract the notice of the public, unaware of the importance of the great British statesman.

That he was a great man that scaled the heights of fortune and won the battle of life against odds which seemed to be irresistible, and who at the gloomiest moments of his career, never lost heart or hope, can no longer be a matter of controversy. A combination of genius, patience, intrepidity and strength of will, such as occurs only, at intervals of centuries could alone have enabled him to succeed, and that combination is greatness. Of the means by which he rose to power, and the extent to which he was favored by chance, different opinions will probably long be entertained [illegible] his errors seem rather to have sprung from a reliance upon false analogies than from any deliberate design to make a tool of party or rise on the profession of principles which he was prepared at any moment to abandon.

KEEP MARRIAGE A SECRET FOR YEAR

Another Colorado College romantic wedding, which has been kept secret for almost a year, came to light yesterday when it was learned that Miss Helen G. Strieby, daughter of Professor and Mrs. William Strieby, was married to Allen H. Remsen, a classmate, of Miss Strieby's, in New York on July 11. Only Mrs. Remsen's parents knew of the marriage, and the hosts of friends of the family were much surprised to learn of it. The secret "came out" yesterday when Mrs. Remsen, known as Miss Strieby around the college, tendered her resignation as an assistant in the biology department of the institution.

Mrs. Remsen will leave this evening for New York city, where her husband is completing his law course at the University of the City of New York. They will make their home there, as her husband plans to practice his profession in that city after he graduates in June.

Mr. and Mrs. Remsen graduated from the college in 1907. Mrs. Remsen took a year's course at Wellesley and her husband went to New York city to study for the bar. Last summer Miss Strieby went east for a visit and the couple were married in New York on July 11. Mrs. Remsen, after her return continued to use her maiden name and only imparted the knowledge to her parents.

Both of the young people are very well-known in this city. Mrs. Remsen lived here for over 20 years. Her father, Professor William Strieby, is one of the oldest professors, in point of service, in the institution. A celebration in his honor was held last June by the alumni.

Mr. Remsen, after his graduation, went east for his law course. Miss Strieby has been teaching in the college for two years and was known as one of the most efficient instructors in the institution.

No successor has been definitely appointed to fill Miss Strieby's place, but it is probable that one will be named early next week when college reopens. Professor and Mrs. Strieby live at 805 North Cascade avenue.

MARCH WEATHER WAS GOOD

Average Mean Temperature Was Slightly Above Normal for 35 Years Lower Precipitation.

March weather, according to the summary of the Colorado College weather bureau, was not unusual to any degree, although the average mean temperature was somewhat higher than the normal average for the last 35 years. The average mean temperature was 41.5 and the normal in the history of the bureau was 37.38. The total precipitation, .42 of an inch, was somewhat lower than the normal, which was .72 of an inch for 35 years.

Although supposed to be a gloomy month, there were 18 perfectly clear days, nine partly cloudy and 4 cloudy. The per cent of sunshine for the month was 62. The maximum temperature was 66 and the minimum nine.

Large Chorus to Sing at Tercentenary Celebration

The three hundredth anniversary celebration of the King James' version of the English Bible will be held at the Temple theater Sunday afternoon, April 23, at 3 o'clock under the auspices of the Ministerial association. Chancellor Buchtel, formerly governor of the state, will deliver the principal address of the afternoon. Singers from the several choirs of the city are expected to take their place on the platform and form a large chorus. Time for rehearsal to be announced later.

The Sunday after Easter will be universally regarded as the day for this celebration though no more than the year is left as a guide to commemorate its achievement. All the churches of the city will be greatly interested in this commemoration and everyone is cordially invited to join in making it a noteworthy event.

MME. SARAH BERNHARDT COMING TO THIS CITY

Theatrical War Over as Far as West Concerned, Says President Theater Owners' Association.

Madame Sarah Bernhardt, the world's greatest living actress now making her farewell tour of America, is coming to Colorado Springs for one performance only, Tuesday night, May 16, when she will appear at the Opera House, presenting, in all probability, Dumas' "La Dame aux Camillias," her most famous success. Manager S. N. Nye's securing this famous artist for his theater is in the nature of a triumph, for Madame Bernhardt is playing only the largest cities of the country, giving but two performances in Denver. When first approached, Bernhardt was unwilling to visit Colorado Springs as she did not believe this city is large enough to warrant her stopping here. However, Manager Nye, after offering her the largest guarantee ever given a star in a city of this size, a sum larger than any theatrical attraction ever drew in gross business here, was able to secure her for one night only.

Mr. Nye was in Denver, Wednesday, consulting with Peter McCourt, booking agent of the Silver circuit, of which the Colorado Springs Opera House is a part, and with John Cort, president of the National Theater Owners association, who is spending a few days in Denver on his way east from the northwest, regarding next season's attractions. According to these two men, the theatrical war which has been waging for the past several years is now over as far as the west is concerned, and next season the National Theater Owners association, of which Mr. Nye is a member, and which is generally known as the "open door" or "independent" faction, will virtually control the western situation. Peter McCourt will represent both this organization and the syndicate faction in the state of Colorado, booking every attraction that plays this state. Already many contracts have been signed for next season by Mr. McCourt for Mr. Nye and indications point to a most prosperous season. The combining of the two warring factions will greatly improve financial conditions in the theatrical world.

Manager Nye announces the following attractions for his spring season at the Opera House: "The Follies of 1910," the big musical show which is the feature of each New York season but which has never been seen in the west, Billie Burke in "Suzanne;" John Drew in "Smith," Ethel Barrymore in one of her several plays, as she is now acting in a repertoire of her various successes of the past few seasons; "Madame Sherry," "A Winning Miss," "Father and the Boys," and "The Man on the Box."

CLOSE PATHS ON CAMPUS

Colorado College Authorities Take Steps to Keep Bicyclists From Running Grounds.

The paths on the Colorado College campus, so much used by bicyclists, have been closed to the public and a strong wire fence erected to prevent any misuse of privileges. A number of accidents to riders were narrowly averted yesterday, and last night pedestrians saw a number of people ride into the fence and fall, in spite of a red light. The College authorities have decided to close the paths in order to keep the beautiful campus intact.

BEWARE OF THE DAY

The Practical Joker in His Element Today and Others Had Better Be Careful.

Beware of the disappearing wallet, the "doctored" candy and the coin nailed to the pavement, for today is April Fools Day, otherwise known as All Fools Day. The practical joker is in his element today and the street corner loungers expect some great sport. A number of social events are scheduled for this evening, and it is probable that many of the "wit" artists are spending sleepless hours figuring out some new jokes to play on their friends.

In seven months the cut of logs in the Vancouver sawmill district scaled 345,575,000 feet. About 70,000 miles of logs and in seven months and in one district.

WOODMEN TO ENTERTAIN

Colorado Springs camp No. 7226, M. W. A., will give an entertainment at their hall next Wednesday evening, in M. W. A. hall, and arrangements are being made to make the affair one of more than usual importance. A musical and literary program is being arranged and refreshments will be served.

There is probably no one thing that adds so much to the number of cups of Coffee that a pound of little berry will produce, as the careful, even, slow, Dry Coke Roast.

It is one of the methods we employ to assist in making ten more cups to the pound.

Makes imperative the new things required for the house; perhaps already put off too long. Commencing with the front hall; there is the stair carpet that is needed, a new rug or perhaps several new rugs, lace curtains, draperies, etc. Most important of all furnishings are the beds. In nearly every house, one or more new mattresses are needed. It is astonishing how many worthless mattresses are in use, some of them a menace to health. We offer values in beds, bed springs and mattresses that cannot be equaled.

NEW RAILROAD FOLDER

Santa Fe Preparing to Send Out Special Pikes Peak Region Advertising Matter.

A special folder, unique in many details, will be issued by the Santa Fe railroad about June 1 on the scenic attractions of the Pikes Peak region. The folder will include a number of new pictures, some of the Crystal park attractions and the hospital and sanatorium buildings in the vicinity of this city. Thousands of these booklets will be sent all over the country by the railroad company, and this city will receive much advertising from it. Special folders on the National Educational association, the Sunday School congress and the American Medical congress, which meet on the Pacific coast, are being issued, and each contains a short description of this city as a good place to visit.

GIVE CLEAR OUTLINE OF ISSUES AT STAKE

The 100 people who gathered at 729 West Huerfano street last night to listen to the able addresses of Dunbar F. Carpenter and David Elliot on the resubmission proposition and especially the clear outline of Ordinance No. 1, left with a better understanding of the proposition which the voters will decide next Tuesday. The people were intensely interested, and the meeting was called at their request. It was considered exceedingly well attended inasmuch as it was more a neighborhood meeting

Mr. Carpenter gave a wonderfully clear outline of the resubmission proposition and made plain the various points of Ordinance No. 1, which would work a great benefit for Colorado Springs.

"If the voters can free their minds from mis-statement and prejudice and think this matter over honestly, and from a broad standpoint for the betterment of conditions, they must come to the conclusion that their votes must be [illegible] for resubmission," he said.

Mr. Elliot outlined the ballot and the way to cast a ballot for a "greater and better Colorado Springs." His talk was straight from the shoulder and well received.

J. F. Boynton presided at the meeting.

WELD COUNTY FARMERS SHOW THEY APPRECIATE EFFORTS TO HELP THEM

In a telephone message from Dr. V. T. Cooke to Secretary Burns of the Dry Farming congress yesterday morning, Dr. Cooke stated that he had addressed several hundred farmers at meetings in Weld county Wednesday and Thursday These meetings were arranged by Secretary Burns and were one of the results of the recent Rock Islandn trip, the new dry farming districts in the vicinity of the Union Pacific in Weld county making demand for some sort of help immediately. Meetings were held in country school houses, also in Osgood and Foston.

"I find a very great need for immediate education of these farmers up here," said Dr. Cooke in making his report. "The country is being filled up with people who have scarcely any knowledge of better farming methods. They were facing failure unless they received help I think that the lecture tour has accomplished great good, and I know that we have aroused considerable enthusiasm for the congress in Colorado Springs"

Dr. Cooke distributed several hundred copies of the Dry Farming Congress Bulletins, and as many application blanks for membership in the congress. He believes that there will result a good and active membership in Weld county, and that there will be a large delegation and some exhibits from that district.

PRESIDENT SLOCUM HOME

Transacted Important Business in Interest of Colorado College While in East.

President W. F Slocum of Colorado College returned home Thursday afternoon from one of the most successful trips in the interests of the college ever made Arrangements were completed by President Slocum with President Lowell of Harvard for the interchange of professors, by which the college will gain much in educational lines A conference was held with the National Education association executive board concerning the raising of the $300,000 for the college, $50,000 of which is to be given by the board on the fullfillment of certain conditions by Colorado College. Of this amount $100,000 is to be used for a gymnasium for the college

President Slocum stated that a good start was made toward securing the fund, but would make no definite statement regarding the matter. "We have a good foundation for the proposition and hope to push it through soon It is my intention and desire to secure the amount at once in order to have the gymnasium built as soon as possible," he said.

While conferring with President Lowell about the change of professors next year, President Slocum talked with Prof. Albert B. Hart, who will come to Colorado College next year, about his plans Regarding this he said. "Professor Hart is one of the most eminent historians in the United States and our securing him attracted a great deal of attention in educational circles"

While in Boston, President Slocum was the guest of honor at a luncheon given by the Colorado College graduates now attending Harvard, and while there learned that the graduate students from the local institution had received more scholarships and felowships for an institution of the same rank than any other in the United States. The total amount received in money was $1,375

President Slocum addressed a meeting at Williams college and several other educational gatherings in the east.

Boy Scouts to Hear of Roosevelt's Trip

J. Alden Loring, the field naturalist who represented the Smithsonian institute in the African trip of Colonel Theodore Roosevelt, has been secured by the Boy Scouts of this city to give an illustrated lecture Monday, April 10, at the First Methodist church. No newspaper men or photographers outside of the original band of explorers and huntsmen accompanied the expedition and Mr. Loring's lectures and pictures are shown by permission of Charles Scribner and Sons, who have the sole rights of them

The title of the lecture will be "Through Africa With Roosevelt." The lecture covers the entire trip from Kapiti Plains through the Sotik country, up Mount Kenia to an altitude of 16,000 feet, then through Uganda and the Congo regions to lakes Victoria and Albert Nyanza, and finally down the Nile to Gondokoro. It describes fully the work of the naturalists. One hundred and twenty beautifully colored lantern slides illustrate the lecture. They are made from photographs taken by Colonel Roosevelt, Kermit Roosevelt, Mr Heller and the lecturer. They depict wild elephants, rhinoceroses, giraffes, wildbeests, heartebeests, zebras and other big game, camp, plain jungle and mountain scenery

The Boy Scouts, of which 10 patrols are organized in this city have the matter in charge and are already working on their campaign. The money earned will be used to purchase field equipment.

Conductor Was Innocent Victim of an Old Joke

A Colorado City lady and her little girl boarded a Colorado Springs car yesterday and both smiled at the conductor, who greeted them as old acquaintances After he had collected the fares he took the little girl on his lap and pulled from his pocket a bag of candy. The child put a piece in her mouth and immediately raised a terrific wail which did not cease for several minutes Then the mother discovered that her child had been given some "April fool" candy, and began to tell the conductor what she thought of him. She took down his number, gave him one foreboding glance and left the car. The conductor wiped his brow and made an examination of the candy. "Just wait," he said, "till I get the fellow who gave me this. It's full of red pepper, and I had been saving it for that little girl all day"

Revised Musical Bill at Majestic

The Sullivan & Considine circuit is rapidly gaining pre-eminence in the quality of its musical acts and the high standard now maintained will be well exemplified in the quality of the musical offerings which are scheduled to open a week's engagement at the Majestic theater this afternoon. There are few cities in the country where good music is more appreciated than in Colorado Springs, and consequently it is always assured in advance that an excellent musical offering of whatever character will be popular.

The Majestic's list of attractions certainly may be spoken of as an excellent musical offering and it has the particular merit of appealing equally to the ordinary person and to the musical "high-brow" whose judgment is critical There is classical stuff and popular stuff, vocal music and instrumental—all sorts and varieties of good music—in the bill.

Heading the list of attractions is Mabel McKinley, the celebrated lyric singer, whose soprano voice has won her national fame, and who is also known as one of the most successful composers of popular songs of the present day. She will sing, playing her own accompaniments, a number of her greatest song hits, both of her own and others' composition.

The high standard of refinement and musical excellence set by Miss McKinley will be maintained by the other acts, which include Fred and Elsa Pendleton in instrumental selections on a variety of instruments, the Mimic Four in a musical sketch, "The Day After," which is full of comedy, and Sterling and Chapman, singers of Scotch airs.

The Majestiscope motion pictures and the concert orchestra complete a bill that will prove thoroughly enjoyable

Lorch Opens Monday.

Theodore Lorch, the well-known and popular actor, opens his spring and summer stock season at the Opera House Monday night with Dustin Farnum's latest success, the romantic "Cameo Kirby," by Booth Tarkington and Harry Leon Wilson, authors of "The Man From Home" which Mr. Lorch played in this city last season with such success.

"Cameo Kirby" gives Mr. Lorch one of his best roles, that of a big-hearted square gambler, a man of high birth but whom circumstances have made a man of the world, a lovable, charming fellow who fights to win but knows how to lose as gracefully as he knows how to win. The play is laid in the early days of the Louisiana settlement and present some excellent opportunities for beautiful costume and stage effects, all of which Mr. Lorch has taken care of.

Seats may be secured for the evening performances at the following scale of prices: Lower floor 50 and 30 cents: balcony 20 cents and gallery 10 cents. Matinee prices are 10 cents for children and 25 cents for adults in any part of the theater. Matinees are given Wednesday and Saturday at 3 o'clock. Complete election returns will be announced during the performance Tuesday night.

Al G. Field Matinee.

When the Columbus Industrial exposition was given in Columbus, O., in June, 1910, the Armbruster Scenic studio of Columbus, had on exhibition the first part setting of the Al G. Field Minstrels. The set was hung in a balcony in the main exhibit hall, with hundreds of lights, shaded so as to bring out the beautiful work on the many drops comprising it.

The set represented only one part of the several which comprise the first part of this season's big minstrel production. It represented an arbor of flowers. The back drop showed the tops of a conservatory, and the hundreds of flowers banked against it was a source of wondering admiration from thousands of persons from all over the middle west who came to the exposition.

For the Twenty-fifth anniversary jubilee production this season Mr Field has spared neither expense or trouble in getting the most elaborate first part setting he could obtain. The first scene shows the court of King Saul and David with his harp of a thousand strings playing and singing to the king. The first change takes the audience in a bound from the first minstrel to modern minstrelsy in the beautiful conservatory set

This is one of the famous Field first parts which have become more gorgeous each season Here the singers attired in white wigs and satin court costumes and the black face minstrels will be seen and heard

Another change takes the spectator to the finale of the first part "The Palace of Momus" where the comedians are introduced and the first part is brought to an end by the sweet minstrel ballads the ever-to-be desired minstrel end men's jokes and the dancing of the galloping hoofs

From a number of exhibits the Armbruster studio took first prize with case with their exhibit of the Field first-part set. The studio [illegible] most expensive and finest [illegible] work it has ever [illegible] nearly 20 years of [illegible] appears at the Opera House this afternoon and night Matinee prices 25c 50c [illegible] night [illegible] $1.00 $1.50.

CITY CANNOT PAY DEBTS

Has the Money But Has Failed to Locate People to Whom it Is Due.

The question of what to do with $15.23 in uncalled for city warrants was taken up at yesterday's meeting of the City Council. The city auditor was instructed to make one more effort to locate those in whose favor the checks are drawn and if they cannot be found to cancel the warrants Two warrants, issued in 1908, are made payable to Mrs. A. D. Hamilton, $5, James L. Calhoun, 25 cents, and C M. Brewer, 50 cents. The others, dated 1909, are as follows. Clark Dalrymple, $2; W. D. Marlowe, 50 cents; R. Costinos, $4, F. W. Chapin, $2.50, and D. W. Fraser, 48 cents.

Application from Dave Wocknov for a junk dealer's license was held up yesterday pending a further investigation into his case. He was found guilty a few days ago of buying stolen brass. The Brown Lumber company was awarded the contract to furnish lumber, nails, etc., as required by the city for the next three months.

James Gardner, a patrolman, who dislocated his shoulder three weeks ago when trying to board a street car, will be paid full time. The accident happened when Gardner was on duty

The drill team of Sunshine camp M W. A. asked for assistance in paying expenses of the team to the head camp session in Buffalo. The matter was referred to the Chamber of Commerce.

FOR A TONIC NOTHING EQUALS S.S.S.

The need of a tonic in the Spring is almost universally recognized We have learned that a weakened run down system means more than "Spring Fever" as we are accustomed to refer to the physical disturbances which come at this season Bodily fatigue, fickle appetite, poor digestion, nervousness, lack of energy, etc., prove that the proper amount of nourishment is not being supplied to the body through the circulation The stomach, bowels and digestive members are sluggish from lack of stimulating nutrition and in consequence the entire body suffers from the effects of a poorly nourished constitution
The recognized importance of pure blood in preserving health emphasizes the danger of a weakened circulation The use of a real blood-purifying tonic when the system is deranged from lack of nourishment, will often prevent the development of some serious sickness because weak systems cannot resist disease, while healthy well nourished constitutions are able to ward it off. No medicine is of value as a tonic except one which purifies and enriches the blood for until this is done the body will not receive its required stimulus and disease resisting powers
Your S. S. S. in my opinion, is as good a medicine as can be had; it simply cannot be improved upon as a remedy to purify and enrich the blood and to invigorate and tone up the system. Last Spring my blood was bad and I was run down in health, and having seen your medicine highly advertised, I commenced its use Today my blood is in fine condition and my general health is of the best. Am filling position as fireman of a large concern here, and if I was not in good physical condition it would be impossible for me to fill the place.
WM F VAN DYKE
815 Fifth St., Beaver Falls, Penn
S. S. S. is the best Spring tonic because of its genuine ability and worth as a blood purifier It builds up the depleted system in the true way by purifying the blood and supplying an increased amount of nourishment to every portion of the body S. S. S. removes all accumulations and impurities from the circulation, enriches the blood and overcomes the unpleasant physical ailments that affect at Spring time It aids and improves the appetite, reinvigorates every fibre and tissue of the body and imparts healthful energy to all who are run down S. S. S. is for sale at drug stores.

Total Output for March, $1,364,321, Shows Increase

Special to The Gazette

CRIPPLE CREEK, March 31.—The output of the Cripple Creek district for March shows material increase, due to the spring activity of prospectors and lessees. The tonnage, 73,125 tons, with a bullion value of $1,358,355, was made from every hill in the recognized producing area, and further increase made be expected.

The figures given out by the mill and smelter representatives follow

Plant and Location	Tonnage.	Average Value.	Gross Value

U. S. R & R., Colorado City	14,350	22.00	315,700
Totals	74,695		$1,364,321

The average value of all ores shipped was $18.57 per ton

Prince Albert.

A rich strike has been made by Ed Cookerly, the old-time prospector, locally dubbed the "Mayor of Beacon Hill," on the Prince Albert company's Beacon hill estate. Last year Cookerly confined operations to surface work and opened up shipping ore in the open cut in unexpected places. This year has made his search in the old shafts, and the strike is at a depth of 150 feet in the Prince Albert shaft. The shaft timbers were taken out to permit of the prospect work, an old miner remembering that a flat lying vein had been cut through in sinking the shaft. The quartz is literally plastered with sylvanite and the heavier crystals of calaverite, and high values are reported from the fire tests made.

W. P. H.

A new vein for the W. P. H. mine on Ironclad hill has been opened up by Oscar Fogleman of the Roach and Fogleman Leasing company. By short crosscut from the shaft at the 650-foot level a vein dipping at an angle of about 45 degrees has been encountered and a drift run out 45 feet is all in ore. The vein is two feet wide and the screenings from the rock broken will make one-ounce ore. The values are showing improvement as the drift is carried forward.

D. 1911, between the hours of 7 o'clock a. m. and 7 o'clock p. m., of said day, for the election of the following named officers:

Two Councilmen, whose term of office shall commence at 10 o'clock a. m. on the first secular day in May, A. D. 1911, following their election, and shall end at 10 o'clock a. m. on the first secular day of May, A. D. 1915, following the election of their successors.

The list of candidates whose names are entitled to appear upon the ballot for the office of Councilmen is as follows, to-wit:

M. J. ACTON
MARION O. BARNES
JACOB BISHOFF.
R. M. CANNON.
SIMEON J. DUNBAR.
THOMAS J. FAIR
HERBERT S. FAIRCHILD.
E. W. FROST.
W. H. GREEN
A. M. HOLDEN.
J. EDW. JOHNSON.
ANDREW J. LAWTON.
BRUCE L. MAXWELL.
A. L. MOWRY
E. M. PORTNER
FRANCIS L. ROUSE

In addition to the election of two councilmen, there will also be submitted to the vote of the qualified electors voting at said general municipal election, in accordance with the provisions of the City Charter and the Ordinances of the City of Colorado Springs, the following propositions and questions, to-wit:

The question of adopting or rejecting **Ordinance No. 1**, licensing drug stores, clubs and hotels to sell intoxicating liquor in the quantity and under the restrictions and regulations provided in said ordinance.

The question of adopting or rejecting **Ordinance No. 2**, licensing restaurants and also drug stores, clubs and hotels to sell intoxicating liquors in the manner and under the conditions provided in said ordinance.

The question of adopting or rejecting the proposition to authorize the issuing of the bonds of the city in the sum of $22,000 for the purpose of extending the Sanitary Sewers of the City.

Only those electors qualified to vote at said election who have paid a property tax in the city in the year next preceding said general municipal election are entitled to vote on this proposition, and the voter wishing to vote on said proposition shall [illegible] ballot separate from that used for the general election, and [illegible] ballot shall be deposited in a ballot box to be used only for such [illegible].

[illegible] matters there will also be submitted to a vote [illegible] said general municipal election, in accordance with the [illegible] Chapter [illegible] of the Statutes of the State of Colorado, 1908, the following question, to-wit:

Shall this political subdivision, the City of Colorado Springs, reverse its vote creating Anti-Saloon Territory?

Done by order of the City Council.

Dated at Colorado Springs, Colorado, March 21st, 1911.

NEW YORK MARKET

CHICAGO, March 31—Confident estimates putting the new growth of winter wheat 35,000,000 bushels in excess of last year aided in driving down prices today. The close showed a loss of ½@⅝c to ¾ compared with 24 hours before. Corn finished ¼@⅜c to ⅜c down, oats off a shade to ¼c, and hog products at 2½c to 25@27½c decline.

Latest sales in the wheat pit were ¼@⅜c up from the bottom figures reached, but the slump had carried the market below any previous level since the beginning of the season. The foreign dispatches told of larger offerings from Russia and from India and gave optimistic reports of the prospect for seeding in the Argentine. World shipments proved larger than had been counted upon, and there was little comfort to be obtained when bulls despairingly turned to the domestic outlook. The tone at the close was steady. May ranged from 85¾c to 86⅝c, and in the end was 86⅛c, a drop of ⅞c from last night.

Big export clearances of corn enabled that cereal to recover partly from pressure by speculators and cash houses. High and low prices for May were 47¾@47⅞c and 47⅛c, with the close ¼@⅜c down at 47⅜a47½c. Cash grades were slow. No. 2 yellow finished at 46¼a47c.

Oats went much the same path as corn. May fluctuated between 30½@30¼c and 30½c, closing at 30⅝c, a net loss of ⅛c.

Provisions received but little support from any source. Latest quotations were lower all around, pork, 20@25@27½c, lard, 10c to 12½c, and ribs, 2½c to an additional loss of a nickel.

CHICAGO MARKET

NEW YORK, March 31.—Fear of a disturbance by the federal government of Wall Street's methods of doing business was resurrected today and became a decided market factor, although the attorney general denied that any definite plan was afoot.

Prices fell with some precipitation in the morning, rallied in the afternoon, and in the last hour showed marked weakness again, the close being at the lowest level of the day. Net losses were substantial, amounting to 1 to 2 points in better known issues. The spurt in stocks of the Canadian group, which was fostered from London, came to an end.

Bank clearings at the leading centers of the country continue to exhibit considerable attraction. The total for the week was 10 per cent less than in the some week of last year and nearly as much below 1909. Copper production at the Butte camp was maintained during March at about the same rate as in the month's immediately preceding.

Bonds were irregular. Total sales, par value, $1,968,000.

United States bonds were unchanged on call.

QUIET CONDITIONS STILL PREVAILING

NEW YORK, March 31.—Bradstreet's tomorrow will say

"Trade reports are similar in tenor to recently preceding weeks, in that they continue to tell of the prevalence of quiet conditions. This disappointing situation is offset to some extent by good crop reports.

"So far as the main springs of trade are concerned, business is quiet, conservatism still prevailing, and working forces are being reduced in some industrial establishments. House trade in such lines as bleached cotton sheetings and cambrics has been stimulated by a cut in prices, which brings the quotations below the cost of making the goods from raw cotton previously purchased at high levels.

"Business failures in the United States for the week ending March 30 were 260, against 277 last week, 232 in the like week of 1910, 204 in 1909, 247 in 1908, and 137 in 1907.

A NOBLE RECORD

Of many hundreds of thousands of cures forms a well sustained basis for every claim put forth by the makers of DR. PIERCE'S GOLDEN MEDICAL DISCOVERY as a remedy for many of the troublesome affections which afflict mankind; yet it is not extolled as a "cure-all" by any means. No extravagant promises are flaunted before the public to arouse false hopes in the afflicted. Your neighbors probably know of some of its many cures; ask them.

Through strengthening and arousing the stomach, liver and bowels into vigorous action, digestion is promoted, whereby the blood is enriched and purified, disease-producing bacteria destroyed and expelled from the body, and thus a long list of skin, scrofulous and kindred affections are overcome and sound, vigorous health established.

The "Discovery" contains no alcohol and no habit-forming drugs, and has its every ingredient printed on its wrappers. This OPEN PUBLICITY places it in a class distinct from the ordinary secret nostrums with which it has no relationship. Physicians, therefore, do not hesitate to prescribe it in bad cases of indigestion, torpid liver or biliousness and in skin and blood affections. People of intelligence and keen discernment employ it. The "Discovery" is a pure glyceric extract of native medicinal roots of great curative potency, and can in no case do harm to either child or adult. The aged find it a great invigorator.

You can learn more about this time proven and popular "Discovery" from the People's Common Sense Medical Adviser, by Dr. R. V. Pierce, a newly revised, up-to-date edition of which is now offered, in cloth covers, post-paid, for 31 cents in one-cent stamps, to cover cost of mailing only; or in paper covers 21 cents. Averts Awful Tragedy.

Timely advice given Mrs. C. Willoughby, of Marengo, Wis., (R. No. 1) prevented a dreadful tragedy and saved two lives. Doctors had said her frightful cough was a "consumption" cough and could do little to help her. After many remedies failed, her aunt urged her to take Dr King's New Discovery. "I have been using it for some time," she wrote, "and the awful cough has almost gone. It also saved my little boy when taken with a severe bronchial trouble." This matchless medicine has no equal for throat and lung troubles. Price 50c and $1.00. Trial bottle free. Guaranteed by The Hefley-Arcularius Drug Co.

Asst. Secretary.

THE ECCENTRIC PAGANINI

A Strange Reminiscence From George Augustus Sala's Boyhood.

From Sala's "My Life and Adventures."

I can see him now—a lean, wan gaunt man in black, with bushy hair, something like Henri Rochefort, and a great deal more like Henry Irving. He looked at me long and earnestly; and somehow, although he was about as weird a looking creature as could well be imagined, I did not feel afraid of him.

In a few broken words my mother explained her mission and put down the 50 guineas on the table. When I say that he washed his hands in the gold—that he scrabbled at it, as David of old did at the gate and grasped it and built it up into little heaps, panting the while, I am not in any way exaggerating. He bundled it up at last in a blue cotton pocket handkerchief with white spots and darted from the room, and we—my poor mother convulsively clasping my hand—went out on the landing and were about descending the stairs when the mighty violinist bolted again from his bedroom door.

"Take that, little boy," he said; "take that," and he thrust a piece of paper, rolled up almost into a ball, into my hand

It was a banknote for 50 pounds!

"You Brute," Is the Strongest Expletive the Koreans Can Think Of

From the Oriental Economic Review

A strange way of cursing is that of the Korean His ordinary swear word is "Oen . a . . r 'You brute' The Japanese have the same partiality for this term of endearment But the Korean considers himself especially abusive when he calls a person his child or grandchild

When he wants to [illegible] down the Korean [illegible] "Are you not my [illegible]" And the angry retort is "What! [illegible]? You are my grandchild"

Then the first goes a little further and [illegible] "You are a grandchild of my grandchild [illegible] the retort [illegible] fellow have you forgotten that you are a grandchild of a grandchild of my grandchild"

When their superstition reaches its climax the people of [illegible] at last come to the Occidental standard of exclaiming "You grandchild of a dog"

The Koreans [illegible] the British navy [illegible] England's harbors [illegible] tions have been [illegible] its use with [illegible]
